Panel debate on the Future of Europe

12 April 2019

14:00-16:00

Luiss University, Rome

Aula Toti

The European Union has gone through a very tumultuous decade, having had to grapple with the Eurozone crisis, the refugee crisis and a less predictable and rule-bound global context. The EU that emerged from the crises has become more differentiated, and faces strong centrifugal pressures not only from Brexit but from a pan-European ‘new’ nationalist or ethnic nationalism that is deeply Eurosceptic. Historically differentiated integration has been an important mechanism for handling Europe’s diversity. Today it is not clear if differentiation is part of the problem or part of the solution.

As a part of the launch of the research project EU Differentiation, Dominance and Democracy (EU3D), we invite to a panel debate on EU’s future patterns of differentiation, dominance and democracy. The debate will outline Europe’s challenges and discuss possible ways for dealing with them.

Chair | **Giovanni Orsina**, Director, Luiss School of Government
Greetings | **Fabiano Schivardi**, Vice Rector for Research, Luiss University
Introduction | **Sergio Fabbrini**, Professor and Dean, Luiss University
Conclusion | **John Erik Fossum**, EU3D coordinator, ARENA, University of Oslo
